P45-45 BASE MOUNTED PUSH PULL CLAMP

Product Information :

Base Mounted Type (Flanged).
Push-Pull toggle clamps use a plunger mechanism to produce a positive straight-line action. They have the advantage of having a low profile, using side or end clamping and so are most suitable for application having a height restriction.

Features and Benefits
• Body and linkage components on the light duty range
are zinc plated to resist corrosion
• Pivot points are fitted with hardened steel or stainless steel
rivets to maintain accuracy and provide a long life
• Red vinyl hand grip with cushion rib profile for improved user comfort
• The heavy-duty range has ductile cast iron bases for strength and rigidity
