Multi-Task E™

Multi-Task E™ is a seamless knitted nylon liner with a nitrile palm coating, thumb crotch reinforcement and impact protection. The highly flexible thermoplastic rubber protection applied to the hand and fingers has been carefully engineered to safeguard from impact injury without restricting movement; it flexes freely with the hand to allow total freedom of movement which in turn alleviates hand fatigue. Movement is further facilitated by the highly tensile nitrile palm coating, which has a slightly roughened finish improving handling performance particularly in light oil applications. The nitrile reinforcement between the thumb and forefinger offers extra protection. Add to this the soft comfortable nylon liner and elasticated neoprene cuff with adjustable VELCRO® wrist strap and you are assured of yet another benchmark product from Polyco. Also available on a header card.

Typically used for:

- Component Handling
- Construction Work
- General Assembly • Electronics
- Light Engineering Work

Case Quantity:

5 pairs per polybag
10 pairs per case

VELCRO® is a registered trademark of Velcro Industries B.V.
