TLMR 101

Electro-mechanical single point lubricant dispenser, battery powered

With a relatively high dispensing pressure, SKF TLMR can operate at long distances and provide optimum results with difficult-to-reach and unsafe lubrication points. Its robust design makes them suitable for operating in a wide temperature range in presence of vibrations. Powered by batteries and delivered without grease.

- Flexible temperature independent dispense rate from 1 to 24 months
- Available cartridges of 120 and 380 ml of SKF grease
- Maximum discharge pressure of 30 bars (435 psi) during the dispensing period
- Wide temperature range, especially suitable for engine rooms, and hot fan applications, as well as wind turbine applications

Overview

Performance

Maximum pressure	30 bar

Properties

Ambient temperature range	-25 – 70 °C
Connecting thread	G 1/4
Degree of protection (IP)	DIN EN 60529: IP 67 DIN 40 050-9: IP 6k9k
Drive mechanism	Electro mechanical
Maximum feed line length	5 m
Nominal emptying time	User adjustable: 1, 2, 3, 6, 9, 12, 18 and 24 months or purge
Power source	4x AA Lithium batteries (included with refill cartridge)

Logistics

Product net weight	0.72 kg
eClass code	23-06-10-14
UNSPSC code	15121902
