STARTER PACK 1/2" BORE

Product Information :

These Starter Packs contain various components that form part of a modular coolant hose system. A modular coolant hose system is ideal for coolants, fluids and air lines. Suitable for all wet machining, spark erosion and air line operations up to 50PSI air and 30PSI liquid. The flow direction is easily and accurately positioned with no spring-back and all parts are fully interchangeable and fully replaceable if a single section is damaged. Manufactured from acetal which is non-conductive and chemical resistant. Available with 1/4in., 1/2in. and 3/4in. bore. Hose is green, all other fittings are orange.

Features and Benefits
- Manufactured from acetal which is non-conductive and chemical resistant for durability
- Available in three specifications to suit your requirements
- All parts are interchangeable and can be replaced when worn
- Can be used for wet machining, spark erosion and air line operations for versatility of use

Typical Applications
- Automotive
- Engineering
- Garages

EAN Code - 5036140088054

PRODUCT ATTRIBUTES

Bore Size	- 1/2in.
Includes	- 13" Hose
Includes	- 2 Connectors
Includes	- 3 Nozzles
Material	- Acetal
Product Type	- Modular Coolant Hose Starter Kit
