ENHANCED HD VISION RG6/U NEUTRIK UHD BNC TO BNC CABLES

- Van Damme Enhanced HD Vision RG6/U cable terminated with Neutrik UHD precision BNC connectors
- For SMPTE 292M, 424M, 425M, ST 2081 & ST 2082 HD-SDI AND UHD 4K/8K digital video use, also suitable for analogue video
- Low loss solid conductor cable, optimised for dynamic use
- Supplied with Violet strain relief boots
- Hand assembled in the UK
- RoHS Compliant

COMPONENT PARTS

Van Damme Enhanced HD Vision solid conductor coax RG6/U

Impedance	75 Ohms ± 2

Attenuation

743 MHz	18.04 dB/100M
1485 MHz	26.20 dB/100m
3000 MHz	36.35 dB/100m

Neutrik NBNCBTU11X rearTWIST UHD BNC connector

- Rear twist design for ease of mating, fully compatible with conventional BNC connectors
- Optimized contact pin and insulator design for UHD-data transmissions
- Turned Antraloy plated brass body, gold plated brass centre pin, PP insulator
- Meets the requirements of SMPTE 424M, 425M, ST 2081 & ST 2082

PRODUCT CODES

Product Code	Description
111-810-151	Van Damme Enhanced HD Vision RG6/U Neutrik UHD BNC to BNC 5m
111-812-151	Van Damme Enhanced HD Vision RG6/U Neutrik UHD BNC to BNC 10m
111-816-151	Van Damme Enhanced HD Vision RG6/U Neutrik UHD BNC to BNC 20m
111-818-151	Van Damme Enhanced HD Vision RG6/U Neutrik UHD BNC to BNC 30m
