Technical sheet

PPC500LOBB

Foldable plastic sign post with weighted base Azul/White

Premium marking bollard designed to easily mark off access, whether temporarily or permanently. The bollard is foldable and comes in a kit for convenient storage. It has a weighted base filled with concrete for stability. Made from ABS and polypropylene materials, it features two rings â€“ one with holes and the other with hooks â€“ for attaching chains in four different directions, along with a threaded top for adding information signs. Available in multiple colours. Chains and information signs are sold separately.

EAN 3321360050229
