AMTE8010

Spacer bolts M8, 10mm

These bolts provide a cost effective solution for mounting plate depth adjustment.

CHARACTERISTICS	
Length	10
Pack quantity.	50

Item no.: AMTE8010
EAN no.: 8713574072893

Technical data

Description: For depth adjustment of the mounting plate. Metric thread M8.

Material: Zinc plated steel.

Features

Feature: Zinc plated steel depth adjustment bolts, for wall mounted enclosures and steel terminal boxes.

Advantage: The depth adjustment bolts are directly fitted to the mounting plate studs which increases the distance between the rear of the enclosure and the mounting plate.

Benefit: The bolts provide a cost effective solution for adjusting the mounting plate in depth.

Comment: The bolts can only adjust the mounting plates in stages. If continuous adjustment is required within wall mounted enclosures, the depth adjustment kit, AMG, should be mounted.
