DATA SHEET

1/4" Heavy-Duty Nylon Retracting Airline Hose

Fitted with solid brass couplings with a 360° swivel and spring protectors, this product can be used in any direction. Supplied in an attractive and vivid yellow colour and constructed of durable nylon.

Features and Benefits

- Has a recoiling action that retracts the product to a fraction of its length when not in use to ensure your work area is tidy
- Couplings with 360° swivel and spring protectors allow the product to be used at all angles

Technical Specifications

- Length: 7.5m (25ft)
- Inside diameter: 6.4mm (1/4")
- Max. working pressure: 250PSI
- Operating temperature: -7°C to 70°C

Typical Applications

- Ideal for use in places that are awkward to access due to its pliable and flexible nature
