9 Piece Variable Pitch Holesaw Kit

KEN-050-2400K

Service Engineer's Kit

Featuring a very aggressive cutting action and M3 HSS cutting teeth to give a very smooth finish.

- Variable pitch: 4 to 6 teeth per inch
- Max. cutting depth: 28.5mm
- For producing high quality holes in wood, steel, brass, bronze, cast iron, aluminium and plastic
- Suitable for engineering, construction and maintenance
- Supplied in a robust plastic carry case

Kit contents:

1x each 22, 29, 35, 44, 51 and 64mm holesaw

1x each K4 and K10 arbor with pilot drills

1x K7 retaining spring

Notes

Cuts up to 40% faster then constant pitch saws. The varying tooth pitch gives substantial reductions in noise by disrupting harmonics produced when sawing materials such as tubing, angle etc. Improved swarf clearance is also achieved requiring less effort to complete each cut. Tooth life is greatly extended, as is battery life when used with a cordless drill.
