

9 Piece Metric Ball End Long Arm Hex Key Set

83521

Features

- Keys made with alloy steel for maximum strength and to resist rotational distortion
- Chamfered edges on both ends help guide the key into the fastener smoothly and quickly
- Ball end design provides greater access, increasing entry angle to 25 degrees
- Short or long side can be used, providing better access and speed in all situations
- Sizes clearly marked on caddy for easy identification
- Meets or exceeds ASME standards.
- Includes caddy for storage and organization
