6 Piece Sharpening Oil Stone Set

KEN-255-9000K

A set specially selected to cover the majority of sharpening applications.

- Grade: Medium
- Size (mm): 100 x 13
- Suitable for wet or dry use

Aluminium Oxide:
An extremely tough abrasive enabling high speed penetration of high tensile materials without causing excessive fracturing.

Silicon Carbide:
A superior abrasive that is able to penetrate and cut quickly with only light pressure being applied.

Set* includes:

Shape	Grit	Abrasive Material	Weight (g)	Code KEN 255
