MAGNETIC SPIRIT LEVEL 600mm

DATA SHEET
KEN-510-5408N

The KENNEDY® Level is an essential tool for professionals seeking precise levelling in construction, plumbing, and DIY projects. Each one is crafted from a durable light alloy with an electrostatic powder coating for easy cleaning. With high-visibility vials in horizontal, vertical, and 45° positions, these levels ensure accuracy of 0.5 mm/m for reliable measurements in any orientation. The strong magnetic base allows hands-free use on metal surfaces, while shock-absorbing rubber end caps protect against impacts.These levels combine rugged durability with precision, making them an indispensable choice for demanding applications.

Features and Benefits

- Vials with high visibility in horizontal, vertical, and 45° positions for precise measurements
- Provides an accuracy of 0.5 mm/m for reliable levelling
- Constructed from robust light alloy for durability
- Shock-resistant rubber end caps help protect against damage
- Magnetic underside offers hands-free use on metal surfaces
- Electrostatic powder-coated finish for easy maintenance
- CNC Fine Milled
