Gooseneck Mount

Repositionable Mount for Calex Pyrometers

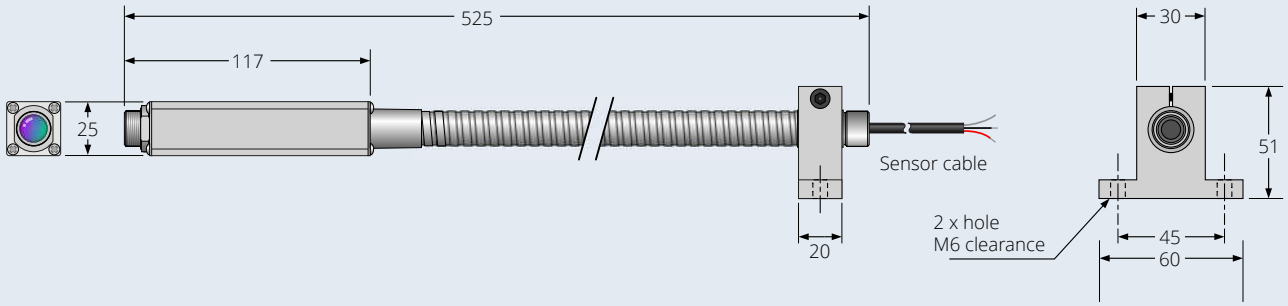
- Stiff, self-supporting steel gooseneck for Calex sensors
- Attaches securely to machinery via robust aluminium mounting block
- Grab the sensor, move it, and the gooseneck will hold it in position
- Quickest, easiest way to adjust the aim of the sensor
- Fits the PyroCouple, PyroEpsilon, PyroMini, PyroMiniBus and PyroCAN
- Can be retrofitted to existing sensors

Specifications	
Construction	Aluminium sensor housing Chrome plated 18 mm steel gooseneck Aluminium mounting bracket
Dimensions	Overall length 525 mm Gooseneck section 360 mm
Compatible Sensor Models	PyroCouple PyroEpsilon PyroMini PyroMiniBus PyroMini 2.2

The Gooseneck Mount is a flexible mounting bracket for Calex infrared temperature sensors.

The stiff metal gooseneck can be moved to any angle and remains in position.

DIMENSIONS



MODEL NUMBERS

GNM	Gooseneck mount for PyroCouple, PyroEpsilon, PyroCAN, PyroMiniBus, PyroMini, PyroMini 2.2 series infrared temperature sensor
