STAINLESS STEEL DIGGING FORK WITH ASH WOOD HANDLE 1060x180x95mm

DATA SHEET
KEN-522-9560Y

The Stainless Steel Border Fork with Ash Wood Handle is a versatile tool designed for cultivating and aerating soil in borders, flower beds, and small garden areas. The durable stainless steel tines are resistant to rust and corrosion, ensuring long-lasting performance even in tough conditions. The ergonomic ash wood handle provides a comfortable grip, reducing strain on the hands and wrists during use. Ideal for breaking up compacted soil, this border fork is perfect for tasks such as planting, weeding, and turning over soil in confined spaces. Its robust construction offers reliability and durability, making it an essential tool for gardeners seeking precision and comfort.

Features and Benefits

- Durable stainless steel tines resistant to rust and corrosion
- Ergonomic ash wood handle for a comfortable, strain-reducing grip
- Ideal for cultivating and aerating soil in borders and small areas
- Perfect for breaking compacted soil and tackling weeding tasks
- Strong construction ensures long-lasting performance
- Excellent for planting and turning over soil in confined spaces
- Reliable design offers comfort and precision in gardening tasks

Notes

- • Dimensions: 990x145x85mm
