STAINLESS STEEL DIGGING SPADE WITH ASH WOOD HANDLE 1060x180x60mm

DATA SHEET
KEN-522-9560Z

The Stainless Steel Border Spade with Ash Wood Handle is a high-quality gardening tool designed for digging, planting, and maintaining borders and flower beds. The durable stainless steel blade is resistant to rust and corrosion, ensuring it performs reliably in various soil conditions. The ash wood handle provides a comfortable grip, helping to reduce strain on the hands and wrists during prolonged use. Its compact size and ergonomic design make it ideal for working in confined spaces, allowing for precision when digging or transplanting. With its sturdy construction, this border spade offers both durability and comfort, making it an essential tool for gardeners.

Features and Benefits
