STAINLESS STEEL DUTCH HOE WITHASH WOOD HANDLE 1590x127x45mm

DATA SHEET
KEN-522-9561C

The Stainless Steel Dutch Hoe with Ash Wood Handle is a reliable tool designed for efficient weeding and cultivating soil in gardens and allotments. Equipped with a durable stainless steel blade, it offers excellent resistance to rust and corrosion while gliding smoothly through soil for precise cutting. The long ash wood handle provides a comfortable grip and reduces strain by allowing an upright working position, minimising back discomfort. Its robust construction ensures long-lasting performance, making it an essential choice for gardeners seeking efficiency and ease of use. Ideal for maintaining flower beds and vegetable patches, this hoe combines durability, comfort, and practicality for effortless garden maintenance.

Features and Benefits

- Durable stainless steel blade for rust and corrosion resistance
- Smooth gliding action through soil for precise weeding
- Long ash wood handle for a comfortable grip and reduced strain
- Upright working position to help minimise back discomfort
- Sturdy construction for long-lasting performance
- Ideal for flower beds and vegetable patches
- Practical and easy to use for effortless garden maintenance

Notes

- Dimensions: 1590x127x45mm
