STAINLESS STEEL BOW RAKE WITH ASH WOOD HANDLE 1630x350x80mm

DATA SHEET
KEN-522-9561D

The Stainless Steel Bow Rake with Ashwood Handle is a versatile tool designed for raking and leveling soil, gravel, and garden debris. The strong stainless steel tines are built to last, offering excellent resistance to rust and corrosion for reliable performance over time. The wide, bowed head ensures efficient soil aeration and debris collection, while the ergonomic ashwood handle provides a comfortable grip, reducing strain during prolonged use. This rake is ideal for tasks such as spreading mulch, creating seedbeds, and maintaining tidy garden spaces. With its sturdy construction and user-friendly design, this bow rake is a durable and practical addition to any gardener's toolkit.

Features and Benefits

- Strong stainless steel tines for durability and rust resistance
- Wide, bowed head for efficient soil aeration and debris collection
- Ergonomic ashwood handle for a comfortable and strain-reducing grip
- Ideal for raking, spreading mulch, and creating seedbeds
- Reliable performance in various garden tasks over time
- Sturdy construction ensures long-lasting use
- Perfect for maintaining tidy garden spaces with ease

Notes

- Dimensions: 1630x350x80mm
