STAINLESS STEEL MIDI HANDLE TROWEL 490x78x80mm

DATA SHEET
KEN-522-9561G

The Stainless Steel Midi Handle Trowel is a compact, durable gardening tool designed for planting, digging, and transplanting in smaller garden spaces. The high-quality stainless steel blade offers excellent resistance to rust and corrosion, ensuring long-lasting performance even in tough soil conditions. The ergonomic handle provides a comfortable grip, reducing hand fatigue during extended use. Its smaller size allows for greater precision and control when working in confined spaces such as pots, borders, or raised beds. Ideal for gardeners seeking a reliable, easy-to-use tool for everyday planting and digging tasks, this midi trowel combines strength and convenience for optimal performance.

Features and Benefits

- High-quality stainless steel blade for rust and corrosion resistance
- Ergonomic handle ensures a comfortable grip and reduces hand fatigue
- Compact size allows for precision and control in smaller spaces
- Ideal for planting, digging, and transplanting in pots, borders, or raised beds
- Long-lasting performance even in tough soil conditions
- Reliable and easy-to-use tool for everyday gardening tasks
- Provides strength and convenience for everyday planting and digging activities

Notes

- Dimensions: 490x78x80mm
