STAINLESS STEEL MIDI HANDLE PATIO KNIFE 460x70x30mm

DATA SHEET
KEN-522-9561L

The Stainless Steel Midi Handle Patio Knife is a specialised gardening tool designed for weeding and maintaining patios, paths, and driveways. Featuring durable stainless steel construction, this knife ensures long-lasting use and resistance to rust. Its sharp, pointed blade allows for precise removal of weeds and unwanted plants from between paving stones and other hard surfaces. The ergonomic midi handle offers a comfortable and secure grip, reducing hand strain during use. Lightweight yet sturdy, this tool is perfect for gardeners who need an effective, reliable solution for keeping outdoor surfaces free of weeds and debris, providing both ease of use and durability.

Features and Benefits

- Durable stainless steel construction for rust resistance and long-lasting performance
- Sharp, pointed blade designed for precise weeding between paving stones
- Ergonomic midi handle provides a secure and comfortable grip
- Lightweight design reduces hand strain during extended use
- Ideal for removing weeds and unwanted plants from patios, paths, and driveways
- Provides an effective, reliable solution for keeping outdoor surfaces clean
- Combines ease of use with durability for everyday gardening tasks
