Technical sheet

PPLO100B

Plastic sign post with heavy base - white

A heavy-duty monobloc bollard designed for easily marking access points, whether temporarily or permanently. Its substantial concrete-weighted base ensures strong stability. Made of ABS and polypropylene, it comes equipped with two rings, one with holes and the other with hooks, allowing you to hang chains in four possible directions. Additionally, it features a threaded top for attaching information signs. It's available in various colors, and the chains and information panels are sold separately.

EAN 3321360023995
HS Code 3926909790

Color : White/Black
Made of : ABS / Polypropylene
