KENNEDY®

1/4" HEX BIT RATCHET

DATA SHEET
KEN-573-9050K

Manufactured from chrome vanadium steel with a chrome plated surface, this 72 Teeth 1/4in. square drive ratchet spanner is easy to operate and possesses a thumb-lever reverse switch. The 1/4in. hex direct drive makes the product suited for use with standard insert 1/4"dr. hex bits.

Features and Benefits

- Chrome plated finish repels dirt and grime and makes for an easy tool clean
- Manufactured from chrome vanadium steel for durability
- Thumb lever reverse switch allows for reverse action
- Direct drive for use with standard insert 1/4"dr. hex bits
- 72 Teeth gear gives 5 degree arch operation
- This super slim head ratcheting handy bit driver's 85mm compact length gives you the enhanced clearance you need to drive fasteners on various jobs and hard to reach tight space like engines, electronics, household appliances, electrical equipment, pianos, and other applications that require fine calibration. Torque performance meets and exceeds ASME and DIN standards.
