DATA SHEET

Product Code: KEN0304930K
Brand : Kennedy

200mm (8") Double Ended Second Cut Saw File

Product Information :

This range of double ended second cut saw files are designed for sharpening saws to have 60° angle. The edges taper towards a point instead of the product having a tang, and the points are left uncut. The teeth are cut from each end towards the centre. Available in an array of sizes.

Features and Benefits
- Available in a range of sizes to suit your exact needs
- Tapered both ends for precision working
- Double ended design allows for twice the product life and use
- Used for sharpening saws to have a 60° angle
- Points are left uncut to help deliver a fine angle

Typical Applications
- Engineering
- Construction
- Automotive

Standards
- BS 498:1990
- GGG-f-325b

EAN Code - 5036140091207
