# DATA SHEET

Product Code: KEN0505190K
Brand : Kennedy

## 19mm DIA. (3/4") BI-METALV/P HOLESAW

Product Information :

The Kennedy® variable pitch hole saws deliver high quality holes in a range of materials, including wood, steel, brass, bronze, and cast iron. The M3 HSS cutting teeth aggressively cut to give a very smooth finish with little to no tear out.

Features and Benefits
- Cuts up to 40% faster than constant pitch saws
- Varying tooth pitch disrupts harmonics to substantially reduce noise
- Tooth life is extended when used in conjuction with a cordless drill

Typical Applications
- Construction
- Engineering
- Maintenance

Notes
- 4-6 teeth per inch
- 28.5mm (11/8") cutting depth

EAN Code - 5036140027084
