DATA SHEET

Product Code: KEN0505350K
Brand : Kennedy

35mm DIA. (1.3/8") BI-MET AL V/P HOLESAW

Product Information :

The Kennedy® variable pitch hole saws deliver high quality holes in a range of materials, including wood, steel, brass, bronze, and cast iron. The M3 HSS cutting teeth aggressively cut to give a very smooth finish with little to no tear out.

Features and Benefits
- Cuts up to 40% faster than constant pitch saws
- Varying tooth pitch disrupts harmonics to substantially reduce noise
- Tooth life is extended when used in conjuction with a cordless drill

Typical Applications
- Construction
- Engineering
- Maintenance

Notes
- 4-6 teeth per inch
- 28.5mm (11/8") cutting depth

EAN Code - 5036140027190

PRODUCT ATTRIBUTES

Blade Construction	- Bi-metal
Blade Material	- Bi-Metal
Body Material	- Alloy Steel
Compatible Arbor	- K10
Compatible Arbor	- K2
Cutting Depth	- 28.5mm
Cutting Diameter	- 35mm
Diameter	- 35mm
Item	- Holesaws
Number of Pieces	- 1
Tooth Pitch	- Variable
