GH370™

A durable glove offering ultimate protection

The GH370™ is a seamless knitted high cut resistant liner with a nitrile palm coating that offers outstanding protection. The GH370™ attains maximum EN388 scores in all categories offering the user an excellent level of protection. The nitrile palm coating is incredibly resilient and flexible, allowing it to adapt to the hand's movements and making it extremely tactile, perfect for meticulous tasks. It is anatomically shaped reducing hand fatigue and has good gripping ability. The close fitting seamless liner is breathable and offers great dexterity, it extends to form an elasticated knit wrist which ensures a secure fit and keeps the hands free from dust and debris. The GH370™ has a high degree of functionality with optimum comfort, making it suitable for use in many applications.

Typically used for:

- Component Handling
- General Assembly
- Electronics
- Construction Work
- Automotive Manufacturing

Case Quantity:
