WaspLabeler & Barcode Maker for Office

BARCODING SOLUTIONS FOR OFFICE

Productivity Solutions for Small Businesses

WaspLabeler & Barcode Maker for Office is a complete barcode and label creation solution, geared to improve efficiency and accuracy for small to medium-sized businesses. Easy to use and learn, WaspLabeler & Barcode Maker for Office provide users without any previous experience using barcodes the tools needed to design, generate, and print barcoded information while seamlessly integrating with Microsoft Office® applications.

Quickly design standard or customised barcodes for use as product barcode labels, stock labels, product scan sheets, or other printed barcode labels with WaspLabeler +2D. Easily use Wasp Barcode Maker in Microsoft Word® or Microsoft Excel® to create barcode invoices or other documents with barcodes.

Don't know which barcode label solution to pick? Easily decide which version is right.

BENEFITS

WaspLabeler +2D

- More than 100 pre-built templates make it easy to create stock labels, asset tags, address and shipping labels, ID badges, & coupons
- Rapidly design customised labels, including barcodes, text, & graphics
- Generate barcode scan sheets or shadow books so that barcodes for small or difficult to tag items are easily accessible
- Automatically serialise your stock or asset tags to simplify tracking

Barcode Maker

- Effortlessly create compliant barcodes using the integrated toolbar
- Eliminate data entry errors by using barcodes
- Improve efficiency of retail checkout with barcoded product lists for small or bulky items
- Link barcodes to data in Microsoft Excel or Microsoft Access for easy updates
