KENNEDY®

Order Code:
KEN-107-5469T

AE22 EXTERNAL ANVIL SIZE 22

External Anvils for Kennedy Threading Toolholders (sizes 16 and 22) ensure precise insert seating and maintain threading accuracy. Manufactured to original specifications, they provide a reliable fit and restore optimal toolholder performance. They are ideal for CNC machining, general engineering, and maintenance settings.

Features and Benefits

- Restores accurate insert alignment and thread quality
- Quick replacement reduces production delays
- Enhances tool stability during machining
- Built to original manufacturer standards
