Product Code: KEN2883000K
Brand : Kennedy

HSS Type Annular Mag Drill Hole Cutter Short - 6 Piece Set in metal Case

Product Information :

Cutting edge geometry increases cutting performance and reduces cutting forces producing a solid Slug of material which is ejected when the cutter breaks through and the hole is complete. Cutters are faster, easier and are more accurate than the conventional twist drills or drill bits. Features and Benefits: Cutters are made of super tough high speed steel (M2 grade) with 3/4" weldon shank compatible with all magnetic drills Six piece cutter set complete with pilot pin Accurate, symmetrical, fine finish hole cutting capabilities Reduced friction between the HSS core drill and the material Time and energy savings Typical Applications: The ideal choice for all your magnetic drilling & cutting applications. Designed for use in fabrication, construction, railways, petrochemical and any other applications when drilling ferrous metal, structural steel, plate, tubing or material that requires a fine finish hole.

EAN Code - 5036140104518

PRODUCT ATTRIBUTES

Cutter Material	- M2 High Speed Steel
Cutting Diameter	- 14-24mm
Depth of Cut	- 25mm
Helix Angle	- 27.5°
Helix Style	- High
Number of Teeth	- -
Overall Length	- 60mm
Shank Diameter	- 19mm
Type	- Multi-Tooth Cutter Set
