DIVIDING PLATE FOR ROTARY TABLE (DIA 200mm, DIA 250mm, DIA 300mm)

These Dividing Plates for Rotary Tables provide precise and efficient indexing for accurate machining. Designed for reliability and ease of use, they allow rapid division of workpieces into equal parts, ensuring consistent results. Manufactured to high standards, they enhance the versatility and performance of rotary tables while maintaining operator safety.

Features and Benefits

- Enables accurate and quick indexing from 2 to 100 divisions
- Suitable for rotary tables with diameters 200 mm, 250 mm and 300 mm
- Three-screw construction for secure and stable fixing
- Inner diameter of sector 28.7 mm for compatibility
- Outer diameter of spring clip 44 mm ensures secure engagement
- Groove width in handle plate 10 mm for precise alignment
