BASE MOUNTED PUSH PULL CLAMP INDUSTRIAL TOGGLE CLAMP 45°

Push-Pull toggle clamps use a plunger mechanism to produce a positive straight-line action. They have the advantage of having a low profile, using side or end clamping and so are most suitable for application having a height restriction.

Features and Benefits

- Body and linkage components on the light duty range
- are zinc plated to resist corrosion
- Pivot points are fitted with hardened steel or stainless steel
- rivets to maintain accuracy and provide a long life
- Red vinyl hand grip with cushion rib profile for improved user comfort
- The heavy-duty range has ductile cast iron bases for strength and rigidity
