Adjustable Spanner 10 Inch / 250mm

Professional adjustable spanners designed for tightening and loosening nuts and bolts with improved grip and reduced fastener damage. The 15° angled head provides better access in confined spaces, while the wider jaw opening and thicker handle deliver greater versatility, control and user comfort across a range of maintenance and engineering applications.

Features and Benefits

- 15° angled head improves access in restricted spaces
- Nut protection design helps prevent rounded corners
- Wider jaw opening increases versatility
- Precision jaw fit improves grip on fasteners
- Thicker handle improves comfort and control

Finish/Coating	Black Phosphate
Jaw Material	Chrome Vanadium Steel
Maximum Jaw Capacity	43mm
Overall Length	250mm
