DATA SHEET

Product Code: KEN5015060K
Brand : Kennedy

Wide Jaw Adjustable Spanner, Steel, 6in./150mm Length, 34mm Jaw Capacity

Product Information :

Constructed from drop forged chrome vanadium steel and complete with a phosphated finish, this range of adjustable wrenches are suited for industrial applications. Possessing a rubber comfort grip handle, ultra thin head design and a wider jaw than conventional adjustable wrenches, the product is complete with a 15° offset head angle. Available in varying sizes each with a laser etched millimetre graduation on the head.

Features and Benefits
- Manufactured from drop forged chrome vanadium steel for durability
- Available in varying sizes to suit your needs
- Laser etched graduated metric scale on the head ensures accurate measurements and setting
- Ultra thin head makes the product suited for use in confined spaces
- Ergonomic rubber grip handle bolsters comfort and control for the user
- 50% wider jaw than most adjustable wrenches

Typical Applications
- Automotive
- Plumbing
- DIY
- Construction

Standards
- Conforms to ISO 6787-1982
- Conforms to ASME B.107.8M-1996
- Conforms to BS 6333-1995
- Conforms to DIN3117-1988
- Conforms to JIS B4604-1976

EAN Code - 5036140239739

PRODUCT ATTRIBUTES

Finish/Coating	- Chrome
Handle Material	- Rubber
Jaw Material	- Steel
Maximum Jaw Capacity	- 34mm
Number of Pieces	- 1
Overall Length	- 150mm
Standards Met	- DIN 3117-1988
Standards Met	- JIS B4604-1976.
Standards Met	- ISO 6787-1982
Standards Met	- 8M-1996, BS 6333-1995
Standards Met	- ASME B.107
Type	- Wide Jaw Adjustable Spanner
