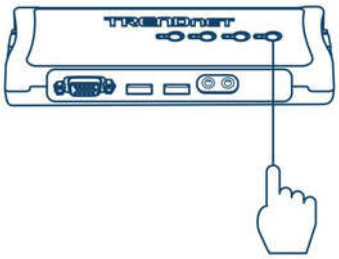
- Compliant with Windows, Linux, and Mac OS
- Auto-Scan and LED display for computer monitoring
- Keyboard status restored when switching between computers
- User definable hot key (Windows only)
- Plug & Play and hot-pluggable
- USB interface power method
- All required cables included
- No CD installation required

TRENDnet's 4-Port USB KVM Switch with Audio, model TK-409K, allows you to control four computers with one set of console controls. Experience up to 2048 x 1536 resolutions, no driver installation required. Separate sets of KVM cables are included with the KVM switch, so users can start controlling four workstations instantly. The KVM cables also provide power to the KVM switch, eliminating the need for a power adapter. Hot Key operations provide immediate access to features, such as computer switching, and auto-scanning. With its Hot-Plug and Audible Feedback, the 4-Port USB KVM Switch is the perfect choice for managing multiple PCs.

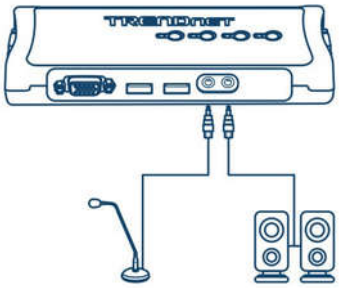
VGA Resolution

The VGA KVM Switch is designed for VGA systems with resolutions up to 2048 x 1536.



Push Button Selection

Conveniently use the integrated push buttons to easily switch between connected computers.



Audio Support

Full audio support through the 3.5mm microphone and speaker jacks maximize workstation productivity.

NETWORKING SOLUTION
