NEW for 2024

Technical sheet

ECO RECYCLE

Description :

- Designed to provide protection against minor shocks and impacts to the head.
- New microfiber foam with second skin effect, 100% breathable and with an absorption capacity of 8 times its weight in water.
- **Thermoregulatory effect: Perspiration does not accumulate, because the fabric promotes its evaporation so that the head always remains dry.**

The ECO Recycled Polyester Bump Cap is made from sustainable fibers and a production process, reducing the impact on the environment. The objective is to support the implementation of more environmentally friendly practices

THE NEW ANTI-BUMP CAP STANDARDIZED EN 812: 2012 - MADE FROM RECYCLED PLASTIC BOTTLES

Head protection against impacts with PPE shell standardized EN 812: 2012, made in France

Elastic neckband adjustable to keep the cap on the head.

Side vents improved by lasercut

Made from recycled rPET plastic bottles

rPET

5 cm visor

Foam and absorbent strips
hydrophilic antibacterial anti-sweat

Lightness:
124 grammes

Injected plastic hooks

100% Recyclable

USE :

- Light industry and manufacturing
- Warehouses and logistics
- Maintenance work
- Craftsmanship and lightweight construction
- Service environments
- Outdoor work
