DATA SHEET

Product Code: KEN5181320K
Brand : Kennedy

1-15mm TAPER BORE GAUGE

Product Information :

Kennedy tapered gauges are ideally suited for the rapid accurate checking of the inside diameters of tubing, slot widths, hole sizes, setting calipers etc.
Manufactured from spring tempered steel with 0.1mm increments. Rustless properties allow for a longer tool lifespan. The satin chrome anti glare finish combined with permanent black figures provides easy to read measurements

Features and Benefits
- Manufactured from spring tempered steel for increased durability
- Rustless properties allow for a longer tool lifespan
- Satin chrome anti glare properties and black figures for easy to read measurements

Typical Applications
- Diameters
- Tubing
- Slots
- Holes

EAN Code - 5036140005204

PRODUCT ATTRIBUTES

Additional Features	- Rustless
Additional Features	- Permanent black figures and graduation
Graduations	- 0.1°
Includes	- Tool Only
MFR Part No.	- 1511A
Material	- Steel
Product Type	- Tapered Gauge
Range	- 1cm to 15cm
Surface Finish	- Anti Glare
Surface Finish	- Satin Chrome
System of Measurement	- Metric
Weight	- 18g
