Brand : Kennedy

100x6.30mm (1/4") SQUARE HEAD CENTRE PUNCH

Product Information :

These non-roll, square head centre punches are ideal for marking out accurately on a workpiece. Manufactured from hardened and tempered steel, each punch possesses a knurled body for a positive grip and is finished with a precision ground 60° point for accurate marking of the workpiece. Available in different sizes to suit your needs.

Features and Benefits
• Knurled body provides the user with optimum grip for precise marking
• Manufactured from hardened and tempered steel for durability
• Available in a range of sizes to suit your application
• Precision ground 60° point ensures optimum accuracy when marking

Typical Applications
• Manufacturing
• Engineering
• Construction

Standards
• BS 3066

EAN Code - 5036140111226
