DATA SHEET

1lb Ball Pein Hammer

With a textured slip resistant rubber grip, this tubular steel shaft ball pein hammer is suited for multi-purpose use. Designed to dampen the impact transmitted through to the user's hand and wrist, the product is completed by a drop forged steel head.

Features and Benefits

- Textured grip is slip resistant to prevent losing control of the hammer
- Drop forged steel head is durable and delivers effective and firm blows
- Anti-vibration tubular steel shaft is highly resilient

Technical Specifications

- Head material: Drop forged steel
- Shaft material: Steel
- Head weight: 450g (16oz.)
- Length: 320mm

Typical Applications

- Engineering
- Automotive
- DIY
- Construction
