KENNEDY
QUALITY INDUSTRIAL TOOLING

DATA SHEET

2-1/2lb Club Hammer

Fully forged and heat treated with a flat face and chamfered edge for use with cold chisels, brick bolsters, star drills and masonry nails. Shaft and grip combine to dampen the impact transmitted through to the user's hand and wrist which in turn reduces operator fatigue and the risk of repetitive strain injury (RSI).

Features and Benefits

- Head is manufactured from fully forged steel for durability and good impact
- Textured slip-resistant grip improves user control and comfort
- Anti-vibration feature to lessen the impact upon hands and wrists

Technical Specifications

- Head material: Drop forged steel
- Shaft material: Fibreglass
- Head weight: 907g (32oz.)
- Length: 265mm (10.5in.)

Typical Applications

- For use with cold chisels, brick bolsters, star drills and masonry nails
