KENNEDY QUALITY INDUSTRIAL TOOLING

DATA SHEET

3/4lb Welder's Chipping Hammer

Designed specifically for boiler scaling, weld dressing and chipping away slag after arc welding, this chipping hammer is extremely hardy. Fitted with a close grain hardwood shaft, the head is manufactured from tempered and hardened steel and possesses chisel and point striking faces.

Features and Benefits

- Chisel and point striking faces provide multiple use and versatility
- Hardwood shaft is extremely durable and can withstand regular use
- High carbon steel head is resilient and has been tempered and hardened for guaranteed longevity

Technical Specifications

- Head material: High carbon steel
- Shaft material: Hickory
- Head weight: 340g (12oz.)
- Length: 290mm

Typical Applications

- Welding
- Construction
