PPS SQKIT - PRE-ASSEMBLED CONFIGURATIONS

PPS SQ - Kit Ø 25 - 1/2»

The Prevost PPS SQKIT is a plug and play system (internal Ø 25mm) that distributes compressed air directly to a workstation. Designed to optimize the delivery and control of compressed air systems, the PPS SQKIT embodies quality and reliability, ensuring minimal air loss and maximum performance.

PRE-ASSEMBLED DESIGN

The PPS SQ Kits deliver all the hallmarks of Prevost's commitment to innovation and quality, offering preassembled solutions that simplify compressed air management. Save time and reduce installation complexity with a plug-and-play solution that's ready to go the moment it's unboxed.

ALUMINIUM SQUARE PIPE

Compatible with the most common workstation profiles on the market, the square PPS SQ pipe from Prevost is designed and adapted for your workstation, offering 100% aluminium construction for lightness, strength, exceptional quality, and guaranteed leak-free safety.

CUSTOMIZABLE

The Prevost PPS SQKIT can be customized directly by the customer by choosing from many items (PPS SQ fittings, PREVOS1 couplers ….) available in our catalogue, to create a tailor-made solution according to their needs and preferences.

Max. operating pressure	Min. / Max temperature
16 bar	-20 / 80 °C

Part number	Length (m)	For pipe OD	Net weight (Kg)	Dim. A (mm)	Dim. B (mm)
PPS SQKIT	1.05	25 mm	2.9	1050	130
