KENNEDY
QUALITY INDUSTRIAL TOOLING

DATA SHEET

2-13/16lb SafeBlower™ 'High Impact' Dead Blow Hammer

With solid steel bar shaft and hollow head. Inside the polyurethane moulded hammerhead are thousands of steel pellets that impact a split second after the hammer face, reducing rebound whilst also adding to the force of the blow. The SafeBlower™ design makes the product safe for use with more delicate workpieces as well as for assembly work.

Features and Benefits

- Solid steel bar shaft is durable
- Shaft is textured for additional grip and control of the tool
- Shot filled polyurethane head reduces rebound and bounceback
- Steel pellets inside the head also bolsters the strength of the blow delivered

Technical Specifications

- Head material: Polyurethane with steel pellets
- Face material: Polyurethane
- Face hardness: Hard
- Shaft material: Steel
- Head weight: 1,275g (45oz.)
- Length: 375mm
