4.1/2x1.1/2" SCALE TANG CHISEL POINT PUTTY KNIFE

Product Information :

These heavy duty, scale tang, putty knives are the ideal tool for smoothing and spreading putty. The tempered flexible steel blade and polished rosewood handle are made in the traditional pattern of a glaziers tool. Available with either clip or chisel point.

Features and Benefits
- Tempered steel blade for durability
- Blade is flexible to allow for enhanced spreading of putty without breaking the blade
- Available with either a clip or chisel point to suit your needs
- Ergonomic wooden handle for improved user comfort and grip

Typical Applications
- Ideal for use when spreading putty to ensure tidy, neat edges

EAN Code - 5036140113879
