Pro. Electrician Cutters 160mm

Designed specifically for electrical professionals, these 160mm scissors offer precision and versatility for a range of multi-purpose tasks. Ergonomically designed handles provide comfort and control for repetitive use, making them an essential tool for electricians.

Features and Benefits

- Compact 160mm size is ideal for precision cutting in confined spaces
- Sharp, durable blades are effective on cables, wires, and insulation
- Ergonomic handles provide comfortable grip reducing hand fatigue during extended use
- Robust construction is built to withstand daily professional use
