DATA SHEET

No12 Round Natural Bristle Sash Brush, Wood Handle

Suited primarily for cutting in or for use on window sashes, these round brushes are ideal for professional use. With wooden handles and a steel ferrule, each brush guarantees a smooth finish. Available in varying sizes to suit your needs.

Features and Benefits

- Steel ferrules firmly hold bristles in place to avoid bristle loss
- Wooden handles provide a firm grip for bolstered control over the brush

Technical Specifications

- Brush width: 9/32"
- Brush length: 50mm
- Bristle shape: Round
- Bristle material: Natural
- Suitable paint types: Oil-based and water-based

Typical Applications

- Painting
- Decorating
- DIY
