DATA SHEET

2" Heavy Duty Scale Tang Scraper - Comfort Grip

These comfort grip scrapers are suited for heavy-duty applications. With scale tangs, tempered flexible steel blades and bi-material comfort grips, they produce neat and precise results whilst also focusing on user comfort. Available to purchase in a range of sizes.

Features and Benefits

- Blade manufactured from tempered steel for resilience
- Flexible blade makes scraping easier and reduces the risk of the blade being damaged
- Bi-material handle emphasises user comfort and grip which in turn gives greater accuracy when using
- Featuring a lanyard hole to keep your tool handy

Technical Specifications

- Blade material: Steel
- Handle material: Bi-material
- Point type: Chisel
- Blade length: 125mm
- Blade width: 50mm (2")
- Overall length: 220mm
