QUALITY INDUSTRIAL TOOLING

DATA SHEET

2" Flat Natural Bristle Laminating Brush, Plastic Handle

With pure, natural, white bristles, this range of laminating brushes are ideal for use on fibreglass and resin. Completed with a stainless ferrule and comfort grip black plastic handle.

Features and Benefits

- Stainless steel ferrule holds the bristles firmly in place to minimise bristle loss
- Black plastic handle has been ergonomically designed to improve comfort and grip whilst using
- Available in a range of sizes to ensure you select the right product for your needs

Technical Specification

- Brush width: 50mm (2")
- Brush length: 45mm
- Bristle shape: Flat
- Bristle material: Natural
- Suitable paint types: Fibreglass and resin

Typical Applications

- Ideal for use with fibreglass and resin projects due to the sturdy bristles that aren't as easily shed as regular paintbrushes
