DATA SHEET

No2 Natural Bristle Artist Brush, Plastic Handle

Available in a variety of sizes, this range of straight handled, medium point paintbrushes are ideal for use when working on crevices and areas that require precision. With pure bristles finished in a black colour, each brush is marked with its size and colour-coded for instant selection of the right size when working.

Features and Benefits

- Chrome plated ferrules are resistant to rust, corrosion and general wear and tear to protect your bristles
- Ergonomic plastic handles give the user comfort and bolstered grip whilst using

Technical Specifications

- Brush width: 2/32"
- Brush length: 18mm
- Bristle shape: Point
- Bristle material: Natural
- Suitable paint types: Oil-based and water-based

Typical Applications

- Ideal for use by painters and decorators when painting small or hard to reach areas that require precision
- Can also be useful to hobbyists for brushing small models and clearing dust and small particles from ornaments
