DATA SHEET

No4 Round Natural Bristle Angle Brush, Wood Handle

These natural bristle, flat and round fitch paint brushes are ideal for those awkward crevices. With long natural wooden handles that are clearly labeled with their size and a steel ferrule to house the bristles. Available as both flat and rounded brushes in varying sizes, they are suited to both oil and water based paints and materials.

Features and Benefits

- Steel ferrule to keep bristles aligned and contained
- Supplied in varying sizes to allow you to select the desired size for your application
- Wooden handle for enhanced grip and comfort whilst using
- Available as round and flat brushes to ensure you find the product to best suit your requirements

Technical Specifications

- Brush width: 200mm (8in.)
- Brush length: 20mm
- Bristle shape: Round
- Bristle material: Natural
- Suitable paint types: Oil-based and water-based

Typical Applications

- Ideal for use in hard to reach areas such as behind pipework, radiators and plug sockets as well as any other awkward or confined areas
- Can be used to 'cut in' rooms by decorators, painters and DIY enthusiasts
- Can be used by hobbyists to dust/clean delicate objects or models
