INSULATED VDE TOOL SET 14 PCS FOAM 4 (OUR OWN CABINET - KEN-594-5580K)

This insulated VDE open-end spanner foam module forms part of a modular 114-piece VDE tool system, designed for safe and organised electrical maintenance. Supplied as an individual foam insert, this module contains a comprehensive range of VDE-certified open-end spanners. Precisely cut to fit the KEN594558 0K cabinet. Supplied as Foam Insert 4 only, it is intended for professionals who require certified VDE-insulated hand tools for safe work on live electrical systems. All tools are manufactured to IEC 60900 standards and are suitable for work on equipment up to 1000V AC, making the set ideal for electrical installation, maintenance and industrial service environments.

Features and Benefits

- VDE-certified insulation enables safe working on live electrical systems up to 1000V AC
- Modular foam insert design allows the set to be used individually or combined with other trays to complete a 114-piece system
- Precision foam layout keeps tools securely in place, reducing movement, loss and damage
- Designed specifically to suit the KEN5945580K cabinet for professional workshop organisation
- Supports compliance, reduces risk of electric shock and increases working confidence
