SET2 (68 PCS)- WATER PROOF CASE BLACK

These professional-grade VDE-Insulated Hand Tool Sets are designed to provide maximum safety and reliability when working with live electrical systems. Featuring a comprehensive selection of insulated screwdrivers, wrenches, sockets, and pliers, these sets offer everything required for safe electrical installation, maintenance, and repair. Built for durability and precision, the tools combine ergonomic comfort with tough insulation to handle demanding electrical work with confidence. Each set is supplied in a robust carry case, ideal for keeping tools secure, organised, and ready for use in workshops or on-site environments.

Features and Benefits

- Durable insulated handles prevent electric shock and provide a secure, comfortable grip for precision control
- Comprehensive tool selection includes screwdrivers, wrenches, sockets, and pliers to handle a wide range of electrical tasks
- High-quality chrome vanadium construction ensures long-lasting strength and resistance to wear
- Clearly marked voltage ratings on each tool provide instant safety verification during use
- Impact-resistant carry case keeps tools organised and protected during transport or storage
